It is to certify that I have read the document thoroughly and circumspectly. I am convinced that the resultant project does not contain any spelling, punctuation or grammatical mistakes as such. All in all I find this document well organized and I am in no doubt that its objectives have been successfully met.

Teacher Name
Designation,
Name of Istitute

Acknowledgements

This project is the direct result of the teamwork. We sincerely thank the instructors and students who have shared their suggestion with us over last few weeks.

Many thanks go to **Prof. Naveed Jahmatt** our Project coordinator and supervisor, whose management helped us to get this project produced in timely and efficient manner.

And finally we thank **Prof. Shahid Manzoor and Prof. Muhammad Younas** who weren't directly involved in this project but who have stood by us the whole way, we appreciate your encouragement and support. We are also thankful to our friends and families whose silent support led us to complete our project.

Write to us

We welcome your response to this project .If there is any thing you want to mention about the improvement of this project please let us know:

ABSTRACT

In rapid development of information technology, E-Commerce is going to be very much common. To achieve competitive advantage in the market it is very necessary to move towards E-Commerce. Zaini Mobiles is a famous and well reputed mobile center in Gujranwala. They deal in Mobiles and provide services. They realized the need of the E-Commerce based web application to achieve competitive edge in the marketplace. They required *ANSI Group* to develop a platform allowing online order processing and maintaining their Inventory and Accounts on the web. We developed the web based application, by using which their customers will be able to get information about new and old mobiles with updated rates and specifications and can place online order for mobiles. The customers will have to login the system to enjoy the facility of online order. The customers will be able to select the mobile phones from the Shopping catalog, add or remove items from the shopping cart and will checkout and make payment through prepaid card. In addition to these there is a lot more to facilitate their customers and the Administrator of the System.

For Our Beloved Parents and Teachers

“Dedicated to our parents and teachers without whose wholehearted support, encouragement and guidance it would have been impossible for us to make this project”
